PROFESSIONAL SUMMARY :

Full Stack Developer skilled in React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, Prisma, and MongoDB. Experienced in building responsive user interfaces, secure RESTful APIs, authentication systems, and scalable web applications. Passionate about writing clean, maintainable code, solving complex problems, and continuously learning modern technologies to deliver high-quality software.

TECHNICAL SKILLS :

- Languages** : JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3, Python
- Frontend** : React.js, Next.js, React Router, Tailwind CSS, Redux Toolkit, TanStack Query, Axios,
- Backend** : Node.js, Express.js, REST APIs, JWT, Prisma ORM, Google OAuth, Firebase Authentication, Stripe
- Databases** : PostgreSQL, MongoDB, Mongoose
- Tools** : Git, GitHub, Postman, VS Code, Vercel, Render, Netlify
- Non-Technical Skills:** Time Management, Team Collaboration, Communication

PROJECTS :

GearUp (Sports & Outdoor Gear Rental Platform):- [Live Demo](#) || [Github](#)

Developed a full-stack sports and outdoor gear rental platform with secure authentication, role-based dashboards, and an intuitive booking experience.

- Built responsive user interfaces using Next.js, TypeScript, Tailwind CSS, and React Hook Form.
- Implemented JWT authentication, Google OAuth, role-based authorization, booking workflows, and complete CRUD functionality.
- Integrated Stripe payments and RESTful APIs using Node.js, Express.js, PostgreSQL, Prisma ORM, TanStack Query, and Axios

Restaurant Management System:- [Live Demo](#) || [Github](#)

Developed a full-featured Restaurant Management System with separate dashboards for Admin and Users, designed to streamline restaurant operations and enhance user experience.

- Built responsive user interfaces using React.js, React Router, and Tailwind CSS.
- Implemented JWT authentication, Google OAuth, role-based authorization, and complete CRUD functionality
- Integrated Stripe payment gateway and RESTful APIs using Node.js, Express.js, and MongoDB.
- Managed server state and API requests with TanStack Query and Axios.

GearUp (Backend):- [Github](#)

Developed a scalable backend for a career development platform with secure authentication, role-based access control, and RESTful API architecture.

- Built secure and scalable RESTful APIs using Node.js, Express.js, TypeScript, PostgreSQL, and Prisma ORM, implementing JWT authentication, role-based authorization, password hashing, and complete CRUD operations. .
- Designed a clean, maintainable backend architecture with reusable controllers, services, middleware, robust input validation, consistent error handling, and efficient database management through type-safe Prisma queries.

EDUCATION

B.Sc. in Computer Science & Engineering

Northern University Bangladesh

(2026 - Present)

Languages

- Bangla — Native
- English — Basic
- Hindi — Intermediate
